

REMARKS

In response to the Office communication mailed August 15, 2007, stating that the amended claims submitted August 2, 2007, were still not in compliance with 37 CFR 1.173, applicants herewith resubmit the "Amendments to the Claims" section under 37 CFR 1.121. Because 37 CFR 1.121 requires the resubmission of only the non-compliant section, applicants' corresponding remarks can be found in the "Amendment and Response" filed on June 25, 2007.

The presentation of the claims is believed to now be in compliance with the Examiner's requested form. It is applicants' intention to be fully compliant with the instructions set forth by the patent rules. The original patent claims, which are being amended for the first time in this reissue application, are presented with the status identifier "Amended"; the deletions to the claims are enclosed in brackets and the newly corrected wording is underlined.

The new claims (i.e., the claims not found in the patent and newly presented in this reissue application) are presented with underlining throughout the claim. These claims are also presented with the status identifiers "new" and "amended", as requested by the Examiner.

A detailed delineation of the claim amendments to the new claims (i.e., the claims not found in the patent and newly presented in the reissue application), Claims 17, 32, and 37, is provided in the "Amendment and Response" filed on June 25, 2007.
